Will you use these strategies in the future?

Yes because student will learn better, also they will love English this way

Yes because they are useful and interesting so students will understand the lesson better.

Yes because in this way students can learn easily and don't get bored

Yes, I will use them with my students.

Yes, I'll use them on my next class on Monday.

Of course, this will be very useful for our teaching process because you come with new ideas that make us grow in the process

Yes of course, are easy and more useful

Of course, all these strategies are good and interesting and I think all I have learned during these five days will help me to be an excellent teacher.

Of course, this will be very useful for our teaching process because you come with new ideas that make us grown in the process

Yes of course these strategies will help me a lot especially when I'm working with my students

Of course, I think these strategies will help me teach English better

Yes I will. I think they are very interesting. Now I have many ideas how to teach English in this class

Yes, I will apply all of them because it's really interesting and important for teachers and our students

Yes, now I have much more to use

Yes, I will use with my students because they need to learn more vocabulary so they can express better with other people

Of course, I think they are going to help us to improve the teaching / learning process.

Yes, I'll use all these strategies. I hope that I'll remember every strategy.
Example choral reading, syllables stress, pronunciation also in reading

Yes in the future I am starting now using these strategies because my students are learning in a different way than before

Will these strategies make you a better teacher?

Yes because I will improve my way of teaching and every student could learn better and enjoy it

Absolutely, thanks for that. These will help me to be better, that's what I needed.

Of course because we as a teacher get good ideas from you and can help teach little kids

Yes, all these are going to help me to be better teachers.

Yes, I think all things that come to our brain are excellent because we should have a lot of different things for being better in our future

But yes of course. The strategies used are useful to best the knowledge

Yes, yes what I have learned makes me a better teacher, because after this course I will teach better.

Yes I think that all new things that come to our brain is excellent because we should have a lot of different things for being better in our future

Well, I think yes. Because we as teachers are going the best every day and with these strategies why not.

Yes because students could feel better about English and I could teach them in a funny way

Yes I will, these strategies make me a better teacher because they can help me to motivate to get the students to understand and like to speak in English

Yes because the classes will be funny. The students will be interested in this learning

Yes, if I try to now more, I will improve my English

Yes, because I can teach students with more strategies so they'll learn new words which can not forget. I will be more patient with them

Every strategy because they are not difficult, not needs a lot of conversion (money).

Yes because I am teacher, I know the subject, but I didn't know how so can understand me. And you taught a lot of strategies.

Yes, because as teacher I learn a lot of things from you. You teach me some important things that I never will imagine. How I am using these strategies in my class are much better.

What was the greatest benefit of GTF's visits?

It was to help us to use new methods to teach.

I really liked you help us correct our errors

You helped us teach better, you techniques were very interesting

The way the trainers explain and also having student participate in the class that I will improve my way of teaching.

Now I have more ideas for my classes.

To share your experiences with us you have given us a lot of helpful teaching aids to be used in our job

How we can introduce grammar in context, to teach vocabulary words and how to take ideas of a reading

To learn more, to put in practice all the knowledge

Your course will benefit me a lot

The knowledge you gave us. It was complete special because the confidence, the natural way you taught us that were the different way you teach us that we never forget in our lives.

For me a lot, a lot, a lot. You help me to correct my errors and take off my doubts. I think the greatest benefit of your visit was your teaching. Also the opportunity to listen and speak English and improve my pronunciation

The methodologies. It is great.

I think the greatest benefit of your visit is to give us your knowledge about methods and techniques in order to improve our teaching. I learned many activities how to motivate students to read, write and speak.

Practice the pronunciation, compare their experiences, learn new strategies, methods and techniques to teach English

For me it was the pronunciation, especially when we are trying to pronounce verbs in past tense

The last one is getting along with the sounds of the words

I think it was all their knowledge

Your knowledge. And so I could learn a lot of things, strategies, how people in the USA and so I think that those days were the best as a teacher.

First that we know you. And that you teach a lot of things that "I WILL NEVER FORGET IN MY LIFE" and also how we can improve our education in Ecuador

What additional training would you like the Global Teacher Foundation to offer?

Other techniques to teach English materials.

You can bring more materials for us

How to make materials for classes, more methodology.

More strategies for getting students to learn to speak fluently and use ESL

Continue assessment.

Offer courses with new technical and methodologies

Share this type of course with us always

Think you can offer more techniques to work with children.

How we can introduce grammar in context.

How to teach vocabulary words

How to take ideas of a reading

Well I'd like to all of you would return again to our dear country first of all.

I'd like you to help us with extra sheet of grammar because I really need those quickly please, please

We are afraid to speak English, and then I think will be a good idea to be training in conversation.

I would like that you will go back soon and give us another course about more techniques and methods how to teach English in order to improve our teaching and also our English.

Other strategies, techniques to teach the pronunciation.

Other techniques to teach reading, listening, speaking and writing.

How to teach grammar and vocabulary in funny way

The outlined focus about how to learn psycho logistics and linguistics

I think you could give us more material.

About speaking

I think you will also teach grammar and conversation for us.

How we can teach kids by songs

And "I HOPE YOU COME BACK AGAIN TO ECUADOR"
